Guardian Research Network
Translating data into cures.

GRN Mission
ACCELERATE CURES AND IMPROVE LIVES OF PATIENTS TREATED IN COMMUNITY HEALTHCARE SETTINGS

Who we are

Guardian Research Network

Non-profit
- Mission-driven, patient-focused
- Optimize clinical/diagnostic studies
- Proprietary trial enrollment
- 501(c)3

Consortium
- Bringing clinical trials to under-served local communities
- Clinical insights from millions
- RWD to guide treatment decisions

Technology-enabled
- HIPAA-compliant
- Multi-layered data security
- Expert research curation
- Quickly & easily queried

What we do

How we do it

Powerful enrollment technology for trial matching & diagnostic studies

Deep data, data science (RWE) & sophisticated analytics

Precision Medicine – tissue/blood studies

GRN Vision
Expand our community hospital network using **your data** combined with **our expertise** and unique **leave-no-patient-behind** approach to enrollment using **real world evidence** to drive **clinical outcomes, precision medicine** and **treatment decisions** to our partner sites.

Operational Excellence
Fast, data-driven trial **feasibility**

Streamlined trial activation

Staffing for precision medicine trials

Proprietary technology for patient screening

Next-generation data analysis & management

Integrated process into physician workflows

Deeper Data
total patients **35M**
3.5M cancer patients
45K+ network physicians

GRN Network Experience

100% MATCHED to GRN Network

250 analytic studies

therapeutic & diagnostic trials

specialty, pathology & radiology reports

1M+ISI

Dig deeper. Enroll more. Refine analytics. Access opportunity.

Richer disease data.   Faster enrollment with the right patients.
Stronger analytics expertise.   Increased probability of success.
